

BC RASKULLS

A BONE COLLECTOR INSPIRED
LINE OF CAMO KIDSWEAR

OFFICIAL KIDSWEAR OF

INTRODUCING **BC RASKULLS**

Having lived within the hunting space for the last 24 years, Michael Waddell and his wife Christie had yet to come across camo clothing for kids that was functional enough to get the job done, but also comfortable enough for a simple playdate in the yard.

Christie, with her eye for fashion and great understanding of hunting and the outdoors, decided to take matters into her own hands and create a line of camo clothing dually named BC Raskulls.

"Being around the hunting industry, I had a hard time as a mom finding cute, comfortable camouflage for my little one— I didn't realize how scarce it was," says Christie. She continues, "Since fashion has always been a passion of mine, I wanted to develop a clothing line for those kids who love the outdoors. Whether playing, hanging out in camp, or hunting, I wanted a line that fit well, was durable, functional and met the need to look cool in the outdoor lifestyle."

The BC Raskulls line is specially designed featuring the Realtree original pattern that is stone-washed and laundered, making these pieces one-of-a-kind. The line also features Bone Collector-inspired detailing like the custom leather patches, shotgun shell buttons and snaps, and adjustable waistlines. Sizes range from newborn to a youth large.

"Christie has always had an eye for fashion & a great understanding of the outdoors and hunting lifestyle which has led to the creation of everything any mother or father would be looking for in a line of camo clothing," says Michael. "It's the best I've ever seen and for parents it's a win win—the search is over when you're wanting to dress your toddler and young hunter like a pro or just to hang in hunting camp in style."
